

**DM2000**  
**HIGH LEVEL**  
**PERFORMANCE**  
**METAL DETECTORS**

*Modern design, high detection level performance, unrivalled reliability and ease of use are the significant features of the Gazomat metal detector with needle dial display:*

- *The DM2000*

### Ease of use

- ◆ From the moment it is switched on, the detector is ready to use without initial set up before operation.
- ◆ Dial display of data for perfect visibility.
- ◆ The On-Off button is fitted with diode meant to unload the dry cells.
- ◆ A button makes it possible to adjust the unit's sensitivity.
- ◆ Telescopic rod is easy to use and quick to respond whether putting it into use or ready for storage.
- ◆ Adjustable disk.

### Reliability

- ◆ The built-in microprocessor allows the DM2000 detector to detect all kinds of ferrous metals up to a depth of about 70 cm for a 8 cm diameter metal object.

### Safety and Robustness

- ◆ Data display is both visual and audio. The wearing of ear phones is optional.
- ◆ The sturdy A.B.S. case is water resistant and shock resistant and provides the operator with a highly robust and reliable tool.

#### Technical file

- On/Off button
- Power supply : 2 R14 batteries
- Battery level indicator
- Sensitivity adjustment button
- Built-in loud speaker
- ABS water and shock resistant case
- Socket for ear phones
- Adjustable disk
- Carrying case (supplied on option)
- Weight : 1.4 kg
